Pacing: Budget Adjustments

- Pacing → managing the daily spend for each account to ensure budget are spent efficiently throughout the month
- Adjusted spend to align with “Remaining Budget per Day”
- Shifted budget to prioritize high performing campaigns
- Support ROAS focused optimization through proactive pacing – 3 times a week

Date	Action Type	Action	Adjusted to:	Sub-Quota	Remaining Budget per Day	Pace Needed	Degree
				Brand	\$585	Slow Down	78%
15-Sep	Increase	Daily Budget	\$ 1,000.00	Non-Brand	\$1,054	Slow Down	76%
15-Sep	Increase	Daily Budget	\$ 2,500.00	Performance Max	\$2,792	Slow Down	92%
15-Sep	Increase	Daily Budget	\$ 2,285.50	Shopping	\$2,536	Speed Up	115%
15-Sep	Increase	Daily Budget	\$ 369.00	RMKT	\$395	Slow Down	90%
15-Sep	Increase	Daily Budget	\$ 70.00	YouTube	\$81	Slow Down	93%
				Bing Brand	\$244	Speed Up	141%
15-Sep	Increase	Daily Budget	\$ 325.00	Bing Shopping/Pmax	\$346	Slow Down	71%
				LinkedIn CTV	\$746	Speed Up	437%
				Facebook	\$1,437	Speed Up	135%
				LinkedIn	\$1,554	Speed Up	293%
			Pacing: Budget				
				Total	\$7,686	Slow Down	94%

Pacing: Overview

- Provides visibility across all accounts in one place
- Helps the team prioritize attention efficiently → where to pull back or push
- Flags risk early for overspend or underspend
- Different versions of demonstrating progress through degree, budget usage, and updates

Agenda

November Pacing
December Budgets
NB Agentic AI Max Testing
Upcoming Meeting Schedule

Pacing

November Budget: **\$28,000**
Budget Spent: **\$25,119**

Wins

- Google - NB Insurance saw a 242% increase in conversions and 300% increase in qualified leads. While the cost per qualified lead increased, the campaign is investing in higher-quality leads who are more likely to become customers.
- Google - NB Agentic AI started to pick on high quality customers by obtaining a solid impressions being reached and a CTR of 2.51%. Overall, there was 11 conversions within a few days and 6 Qualified Leads with a CPA of \$205 and Cost per QL by \$377. We shall continue to monitor and see the progress as the month goes on.
- Bing - NB Insurance contributed the most conversions with a 67% increase PoP. Receiving increase in impressions and clicks suggesting high reaches.

Challenges

- Google - CPC increased by 12% from the previous month, mainly contributed by NB Agentic AI.
- Bing - CPC increased by 33%. Resulting in higher spend by 113% with conversions dropping 18%. The increase in CPA by 160% confirms that spend is high for each conversion.

- Summarizes key wins, challenges, and pacing insights so clients can quickly understand performance
- Provides consistent performance overview for the given date – Half-Month and Full-Month FY
- Allows time for internal review and data verification
- Supports clear, and client-friendly communication

- Created Cyber Sale Reports to evaluate promotional performance across platforms
 - Google Ads, Bing Ads, Socials
- Included YoY analysis to identify top-performing campaigns and inform next-year strategy
- Created a PoP report to showcase performance during Cyber Sale days and extended promotion period
- Helped client decision on whether extending future promotions is worth investing

Building Client Connection

- Shadowed client meetings to understand goals, KPIs, and campaign priorities
- Take down meeting notes and recaps to support internal alignments
- Sent client follow-ups, including recaps, attached performance report, and next steps
- Helped confirm updates and keep clients informed on campaign changes and timelines

Agenda

- Performance Review
- Budget Update
- PSC Updates

SEPTEMBER SPENT: (9/1-9/30)

- Budget: \$16,100
- Spent: \$14,470 (90% of Budget)

PERFORMANCE

HOLISTIC

- Revenue remained flat while cost slightly increased 8 % resulting in ROAS decrease by 7%. (AOV down by 19%)
- CTR increased by 16% (clicks went up by 7%) and conversions went up by 24%.

WINS

- Google Ads Brand Campaigns CPC went down 39%
- Cost went down 46% but conversions increased by 41% and revenue increased 53%. Resulting in a ROAS increase by 181%.
- Bing Brand saw a 313% increase in impressions and 52% increase in clicks.
- CPC decreased by 28% and conversions went up by 19%
- NB Campaigns impressions increased by 30% and clicks went up 19% (CVR 7%)

CHALLENGES

- NB campaign increased cost by 43% but the ROAS decreased by 42%. Conversions went up by 28% but revenue decreased by 17%.
- PMax saw conversions remained steady and revenue dropped by 54% also because of the AOV.

UPDATES | NEXT STEPS

- Created an Experiment to NB campaigns to test AI Search Max feature - improve CTR

Translated detailed performance data into clear, client-facing takeaways

Creating Google Ad Campaigns

- Earned my Google Ads Search Certification, strengthening my understanding of keyword strategy, and the importance of intentional search ads for customers
- Used Google Ads Editor to build promotional campaigns coming up for clients
- Enabled faster campaign launches, bulk edits, and error checks before publishing on Google Ads platform

Google Merchant Center

- Product data, pricing, and promotions are managed and sent to Google so products can appear in Shopping ads
- Directly influences the CTR , conversions, and ROAS by controlling what the shoppers see
- Through GMC, the Promo Code is finalized and send over to third-party for specific item discount

Recurring Tasks

- **End of the Month Spend** → sent over to our internal team to support accurate client billing
- **New Product Links** → Updated new items for client and ensure Google Ads leads the users to the correct landing pages and promoted the right products
- **Customer Match File Upload to SFTP** → Accessed and uploaded customer data via FileZilla to maintain accurate and up-to-date audience targeting
- **Stratex Slides** → Built monthly reports with detailed takeaways for each campaign type and clear visual insights on overall performance

Next Steps ...

- Continuing my studies
 - M.S. in Data Science at Fordham University
- Working on side projects that I learned throughout my internships
 - Power BI, SQL, Google Ads, Bing Ads
- Continue asking “why” to uncover root causes and develop solutions through reporting insights
 - Business Analytics course in the summer

Thank you!
